**SUPPLEMENTAL AMENDMENT AND
REQUEST FOR RECONSIDERATION**

Assistant Commissioner for Patents
Washington, DC 20231

Sir:

In response to the last Office Action, Applicant respectfully requests entry of amendments to the above application as follows:

Appendix 1 is attached and incorporated into this amendment made in the above application and contains the amended paragraphs of the specification and/or claims in the form showing stricken material in brackets and new material as underlined.

Claims: Please amend claims 1 and 10 as follows:

1. (Thrice amended) A thermokinetic mixer comprising:

- (a) a substantially cylindrical mixing chamber with an inside surface enclosing a shaft connected with a motor driver outside the mixing chamber and rotatable at relatively high speed substantially about an axis of the cylindrical mixing chamber, the mixing chamber having an opening at a first end of the cylinder that communicates with a screw feeder, where the screw feeder comprises screw blades mounted on an extension of the shaft and are enclosed with a cylindrical housing open at an inlet port, the screw feeder being adapted to receive a particulate feed material comprising an effective amount of particles of polymers meltable at operating conditions and to deliver the feed material to the mixing chamber;
